ICG Coach By Color® Cycling

NOTE: All participants are encouraged to bring a towel and water to all cycling classes. Also, please wipe down your bike after use and avoid spraying cleaner directly on the bike. *(Located in the Group Cycling Studio)

To COACH BY COLOR® is to bring a simple and intuitive form of communication to group cycling to improve the riders experience and to achieve their fitness results in less time. The Coach By Color® power program combines accurate zonal training with stimulating color to help coach a member's effort during the workout.

BEGINNER CYCLING: Great class for the new cyclist to learn the basic moves that make up the ICG Coach By Color cycling program. Instructors will spend more time on bike set up, technique, and safety issues. Includes the basics of cycling with a great interval workout to prepare participants for other spinning classes. **TBA when scheduled**

ALL-TERRAIN: This class does it all! It incorporates endurance, strength, and interval training with a mix of flat road, jumps, and climbs.

INTERVAL CYCLING: This class emphasizes speed, tempo, timing and rhythm. Interval training alternates between high and low aerobic intensities, ranging in work efforts (color zones). It is a great way to judge overall fitness improvement and add variety to any fitness program!

STRENGTH RIDE: This class involves steady, consistent pedaling with heavy resistance. A great way to build up muscular and cardiovascular ability by stimulating challenging hill climbing.

INSTRUCTOR LEAD FTP (FUNCTIONAL THRESHOLD POWER TEST): A ramp test used to help measure a user's fitness and establish their 5 colored training zones. Every 4 minutes the WATTS target will increase 25 watts, all the rider has to do is "keep it green" for as long as they can (up to a max of 20 minutes). Once an individual's FTP is known, users are assigned the 5 zones to accurately coach their effort for the best customized results. **These will be offered as special events (not on the weekly schedule).**
